

NOELLE WILHITE

AIA | NCARB

SENIOR PROJECT ARCHITECT

PROFESSIONAL SUMMARY

Licensed architect with 15 years of experience across residential, multifamily, civic, commercial, and mixed-use projects. For the past nine years, her work in Colorado mountain communities has included high-end custom residential, affordable housing, and civic projects, developing deep expertise in Colorado building codes, land use, permitting, and complex design review processes. She is a collaborative project leader who combines thoughtful research and exceptional attention to detail with a responsive approach to client needs, multidisciplinary coordination, and design excellence.

EXPERIENCE

KEO studioworks | Snowmass Village, CO

Senior Project Architect | 2022-Present

Lead complex residential, multifamily, and civic projects throughout Colorado mountain communities from inception through construction.

- Direct project delivery through all phases of design, permitting, and construction administration.
- Develop and implement design intent through project and material research, detailing, BIM modeling, visualization, and presentation.
- Coordinate multidisciplinary teams including clients, jurisdictions, consultants, and contractors; navigate land use, codes, design review, and permitting.
- Oversee construction documentation and administration with a focus on design quality and technical precision, including submittals, RFIs, and site observations.
- Manage teams, schedules, budgets, deliverables, and QA/QC; develop BIM workflows and mentor staff.

KA DesignWorks | Basalt, CO

Project Architect | 2021-2022

Led SD-CD delivery for high-end custom residential projects throughout the Roaring Fork, Vail/Eagle, and Summit County markets, focused on design execution, detailing, and technical precision.

- Led SD-CD documentation and consultant coordination; developed BIM models, researched materials, and coordinated drawing sets through design approvals and permitting.
- Directed BIM coordination and developed office-wide BIM template, standards, and workflows.
- Mentored junior staff in design, project documentation, code research, and BIM workflows.
- Earned Colorado architectural licensure, completing all six ARE divisions in five months.

Charles Cunniffe Architects | Aspen, CO

Architectural Staff | 2020-2021

- Developed concept design through CD/permit sets for high-end custom residences and interior renovations in Aspen and Carbondale.
- Supported planning, feasibility, and concept development for the Lumberyard, a 300-unit affordable housing project, through project/material research, 3D modeling, and visualization.

BG Architecture & Design | Aspen, CO

Job Captain | 2018-2020

- Developed SD-DD BIM models, visualizations, presentations, and design review submittals for high-end custom residences in the Roaring Fork Valley.
- Produced coordinated CD/permit sets for approvals and permitting, including detailing, code compliance, and consultant coordination.

Independent Contract Architectural Designer | Steamboat Springs, CO | 2017-2018

Valerio Dewalt Train | Chicago, IL

Architectural Staff | 2005-2009

- Blackhawk on Halsted, Chicago | 224,000 SF mixed-use - Developed SD-CD documentation, detailing, specifications, and code analysis; coordinated consultants and produced PUD/client presentations for K-12, retail/medical office, and a 550-car parking garage.
- Executed construction administration and LEED certification through project occupancy.

Perkins + Will | Boston, MA

Intern Architect | 2001-2003

- Center for Medical Sciences, Albany, NY | 156,000 SF BSL-3 biotech lab - SD-DD hand-drawn illustrations and presentation materials; DD-CD technical documentation, specifications, and CA.
- Built physical 3D models for Wentworth Institute of Technology's 360-bed student housing.
- Developed feasibility studies for Whitehead Institute's biotech incubator facilities.

Collegiate Division 1 & Competitive Club Swim Coach | Chicago, IL + Palo Alto, CA | 2009-2017
